

## HTC\* DAY 2018

(\*Hematopoietic stem cell Transplantation Complications)

### CRYOSTEM Scientific Day

Under the aegis of SFGM-TC - 2018, May 30<sup>th</sup>

Maison de l'Amérique Latine, Paris

#### « Predictive factors associated with complications post-HSCT »

**10h-10h15 : Introduction**

**Session 1 : Donor immune architecture and outcomes post HSCT**

**10h15-10h45 : orateur en attente de confirmation**

**10h45-11h15 :** Computational flow cytometry: helping to make sense of high-dimensional immunology data

**Y.Saey**s, VIB Center for Inflammation Research, Gant - **CONFIRME**

**11h15-11h45 :** CHIP and HSCT : focus on donors

**F. Damm**, Charité Universität de Médecine, Berlin - **CONFIRME**

**Séance plénière:**

**11h45-12h45 :** Donor selection for natural killer cell receptor genes and relapse/survival after transplantation

**D. Weisdorf**, Hematology, Oncology and Transplantation University of Minnesota, Minneapolis – **CONFIRME**

**12h45-13h45 : Lunch Break**

**Session 2 : Pre transplant factors associated with toxicity or infection post-HSCT**

**13h45-14h15 :** Telomere length and toxicity after HSCT

**R. Peffault de Latour**, Hôpital Saint Louis, Paris – **CONFIRME**

**14h15-14h45 :** Anti-HLA immunization and outcomes post-HSCT

**JL.Taupin**, Hôpital Saint Louis, Paris – **CONFIRME**

**14h45-15h15 :** DNA polymorphism and fungal infection after HSCT

**A. Carvalho**, Université de Minho, Braga – **CONFIRME**

**15h15-15h30 : Coffee Break**

**Séance plénière:**

**15h30-16h30 :** Immune anti-CMV responses and immunosuppression in the context of HSCT

**K.Komanduri**, Sylvester Cancer Center Adult Stem Cell Transplant Program, Miami – **CONFIRME**

**Conclusion**

#### COORDINATEURS

Régis **Peffault de Latour**  
Boris **Calmels**

#### CHEFS DE PROJETS

Claire **Fontenille**  
claire.fontenille@cryostem.org

Emilie **Robert**  
emilie.robert@cryostem.org
